Katherine Gale
MBChB FRACS
Breast Surgeon

I am one of a few female specialist oncoplastic breast surgeons in New Zealand who practice all aspects of breast oncology and reconstruction. I am an expert in minimally-invasive diagnostic and treatment methods for all types of breast disease and, following a breast cancer diagnosis, I can offer a full range of partial and whole breast reconstruction. I believe in offering evidence based treatment to patients when tailoring a surgical solution, and have done extensive research in both breast oncology and reconstruction.

Areas of expertise:
Oncoplastic Breast,
Cutaneous Oncology
and General Surgery
